

GUIDO TAPIA ORÉ

Software Engineer

@ guido.tapia.ore@gmail.com +51 992 547 553 Arequipa, PE
in linkedin.com/in/gl-tapia-ore-2601/

SUMMARY

Full-stack Software Engineer with 4+ years of experience designing and delivering scalable web and mobile applications using JavaScript technologies (React, Node.js, React Native). Proven track record of career growth from Trainee to Lead roles, mentoring new developers, and collaborating directly with international clients. Recognized in global competitions and passionate about building high-impact, user-focused solutions.

EXPERIENCE

Software Engineer

RAVN Development

05/2021 – 08/2025 American Fork, UT (Remote)

- Promoted from Trainee to Software Engineer within the first quarter, later entrusted with leadership responsibilities across multiple projects.
- Designed and delivered 5+ full-stack web and mobile apps with React, Node.js, and related tools, serving clients in the US and Europe.
- Led teams of 2–10 developers, coordinating workflows, mentoring 10+ junior hires, and reducing onboarding time from 3 months to 1 month while ensuring high-quality delivery.
- Engaged directly with English-speaking clients to define scope and deliver tailored solutions, ensuring alignment with business goals.

Domotics Developer

Edusoftnet

01/2018 – 02/2019 Arequipa, PE

- Built and deployed automation modules for school bell systems, eliminating manual scheduling.
- Developed a VB.NET desktop app for device control, increasing adoption by non-technical staff.

Domotics Developer

Apselom

10/2017 – 07/2018 Arequipa, PE

- Designed smart waste-monitoring devices and built C libraries that cut debugging time by 50
- Delivered an Android/iOS tracking app to improve locations waste management.
